Il marchio **Lotti** identifica una gamma di attrezzature agricole per la lavorazione del terreno, l'eliminazione delle erbe infestanti e la cura dell'apparato vegetativo delle piante nei frutteti e nei vigneti.

L'esclusiva testata porta-attrezzi consente l'utilizzo di svariati accessori per la lavorazione del terreno e la prepotatura.

Le attrezzature Lotti sono in grado di operare nei terreni più scoscesi adeguandosi automaticamente alle asperità e consentono di variare la profondità di lavoro nel terreno. La flessibilità e la possibilità di utilizzare molteplici attrezzi permettono di svolgere svariate lavorazioni: **trinciatura - scalzatura - rincalzatura - sarchiatura - spollonatura - lavorazione del terreno - cimatura - pulizia del filare dopo le potature.**

The brand **Lotti** identifies a range of agricultural equipment to till the soil, remove weeds, take care of plants in orchards and vineyards.

The special tool-holding head enables the operator to use several soil tilling and pre-pruning accessories.

Lotti machines can operate on steep grounds, they automatically adapt to the unevenness of the soil and can vary their working depth. Their flexibility and the possibility to use several accessories enable the user to carry out the following operations: **chopping, ploughing back, earthing up, weeding, desuckering, topping, row cleaning after pruning.**

biologico non usa prodotti chimici

Ecofriendly: it does not use chemical products, **versatile:** interchangeable tools, **simple** in changing tools, **convenient** several working systems, **precise** working.

Écologique: n'utilise pas de produits chimiques, **Polyvalent:** outils interchangeables, **Simple:** dans le changement des outils, **Avantageux:** Plusieurs utilisations, **Précis:** dans le travail.

Umweltfreundlich keine Chemikalien, **vielseitig** auswechselbare Werkzeuge, **einfach** beim Werkzeugswechsel, **günstig** mehrere Bearbeitungssysteme, **präzise** Bearbeitung.

Die Marke **Lotti** identifiziert eine Reihe von landwirtschaftlichen Geräten für die Bodenbearbeitung, die Unkrautentfernung und die Pflanzenpflege in Obst- und Weinanlagen.

Die spezielle Werkzeugkopf ermöglicht den Einsatz verschiedener Zubehöerteile für die Bodenbearbeitung und den Vorschnitt.

Lotti Maschinen eignen sich für den Einsatz in Steillagen und können sich den Bodenunebenheiten automatisch anpassen. Außerdem ist damit eine Regulierung der Arbeitstiefe der verschiedenen Werkzeuge möglich. Die Flexibilität und die Möglichkeit, mehrere Werkzeuge zu verwenden, ermöglichen die Durchführung verschiedener Operationen: **Häckseln - Schälen - Anhäufeln - Auflockern - Entranken - Bodenbearbeitung - Laubschnitt - Ausputzen der Reihen nach dem Schnitt.**

La marque **Lotti** identifie une gamme de équipements agricoles pour le travail du sol, la suppression des mauvaises herbes et le soin des plants dans les vergers et les vignobles. La spéciale tête porte accessoires permet l'utilisation de divers accessoires pour le travail du sol et le pre-élagage.

Les équipements Lotti sont en mesure de fonctionner sur des terrains escarpés, en s'adaptant automatiquement à les aspérités. Elles peuvent aussi varier la profondeur de travail dans le sol. La flexibilité et la possibilité d'utiliser plusieurs outils permettent d'effectuer diverses opérations: **hachage - déruellage - buttage - sarclage - ébuourgeonnage - écimage nettoyage de la ligne après la taille.**
